

ELECTRIC VEHICLE SERVICE CONTRACT

COMPREHENSIVE SPECIALTY PROTECTION FOR ELECTRIC VEHICLES

Electric vehicles have thousands fewer parts than traditional combustion engine vehicles, but those components are more complex and specialized. When a breakdown occurs, the costs can be significant.

To avoid the expense of unexpected and costly repairs, extended coverage that goes beyond your manufacturer's warranty is a wise investment. With **eVSC**, protection ranges from brakes to transmission, including hybrid/electrical vehicle components. Power and peace of mind in one affordable package!
